

## **Breugelmans Limousines & Services sprl**

\* In 2008 Breugelmans Limousines & Services sprl celebrates its tenth anniversary. Set up in 1998 by Patrice Breugelmans, the company is one of the most esteemed limousine societies in the European capital. Thanks to an impeccable service that comes with a smile and is offered by professional, flexible and efficient drivers, Breugelmans Limousines is delighted with a loyal and growing number of national and international clients.

The company provides a very attractive series of cars consisting of hybrid Lexus 600 models, of Mercedes cars in the S-class, BMW cars in the 7 series and luxury Mercedes minivans. Other vehicles are available on demand.

\* Concerned about the planetary environment and the CO2 emissions, Patrice Breugelmans opted for the new formula of hybrid cars as soon as they made their appearance on the market. He is particularly interested in the solutions they offer by combining the use of the electric motor while driving in the city and the thermic motor on the main road.

Breugelmans Limousines & Services sprl has been the first organisation of its kind to acquire hybrid limousines in Belgium.

\* The staff at Breugelmans Limousines has been selected and trained in order to be of full service. All drivers are multilingual, well-trained, discrete and competent. They are aware of formal demands and received a tourism training, allowing them to be a guide to their clients when asked for. They are also ready to be of help in situations where clients are confronted with lost luggage, non-confirmed hotel bookings, etc.

Drivers can make use of the clients' car, depending on the type of demand.

\* Patrice Breugelmans was born in Belgium (Brussels) but grew up and received his education in Spain (Malaga) before returning to his native country where he has been active in the limousine business since the start of his career. In 1998 he created his own company, Breugelmans Limousines & Services, aiming to offer a high-quality service providing excellent drivers and luxury cars. In ten years time he has expanded the company gradually and succesfully, always respecting his high quality standards.

\* You may find more information about the cars on <http://www.lexus.com/hybriddrive/>
